

AQ-4XL Transverse Cutter

AQ-4XL DESCRIPTION

The AQ-4XL hydraulic **drum cutter** is an extremely popular model as it is an excellent fit for mid/large size excavators so commonly found on jobsites throughout the world (CAT 345/349, PC400/450 etc.). The impressive torque and cutting force output makes the AQ-4XL an excellent tool for mass excavation of medium to hard rock.

Recommended excavators/carrier size class: 45-70 tons

Hydraulic Power: 215HP (160kW)

Technical Data	Unit	AQ-4XL
Cutting Head Diameter (B)	in (mm)	28 (710)
Cutting Head Width (A)	in (mm)	49 (1.245)
Oil Flow	gpm (l/min)	65-130 (245-495)
Max Pressure	psi (bar)	5,800 (400)
Max Torque	ft lbs (Nm)	28,120 (38.125)
Max Cutting Force	lbs (N)	24,068 (107.105)
Operating Weight	lbs (kg)	5,775 (2.625)

Please note hydraulic power rating should not be exceeded

Quantity of cutter bits for standard drums: 56
